

PCAST - Person-Centered Approaches in Schools and Transition:

For Families, Students and Educators

Join The Arc of New Jersey Family Institute as we host 3 regional PCAST Workshops with Michael Steinbruck.

Ensuring a student's IEP is person centered is a critical component in planning for a student's transition from school to adult life. During this hands-on workshop, participants will learn fundamental skills, tools and processes to implement person centered approaches in schools. These include methods for gathering, organizing and presenting person-centered information, and implementing strategies designed to improve post school outcomes for students.

Presenter: Michael Steinbruck, MA is the PCAST Program Coordinator at The Boggs Center on Developmental Disabilities.

This workshop is funded by the New Jersey Department of Education, Office of Special Education Programs.
