Re: Thank You

Date: May 20, 2016

On behalf of the Bergen County Special Services School District's CAPE Resource Center, I am writing to thank you for your presentation: **"Getting Ready for College: A Postsecondary Option for Students with Intellectual and/or Developmental Disabilities (I/DD)"**, on May 18, 2016.

Postsecondary options can be a dilemma for families of a youth with I/DD. Your presentation offered them practical information as they begin their journey to examine the different options available after high school. Navigating governmental and other systems can be overwhelming, however, you gave families some direction, insight and hope, as well as up to date information about college programs throughout the State.

Again, thank you for a worthwhile and informative presentation. The parents' feedback was very positive. I look forward to working with you again in the future and now you know where we are located!
