Call to register for class and childcare for children 12 and under

Are you struggling with a child who is disrespectful, obnoxious, or even abusive toward you? Are you frustrated and exhausted from arguing constantly? Do you find yourself "walking on eggshells" around your child, trying to avoid saying something that will set him or her off? Have you tried talking, screaming, punishing, pleading, and negotiating—but your child still walks all over you?

All children behave badly from time to time. But when defiance, hostility and refusal to comply are ongoing, the behavior affects the entire family and requires a more serious intervention. Fortunately, we've seen that when parents use the right tools, they can change their child's problem behavior—quickly and dramatically.

Register for these classes TODAY and learn step-by-step techniques you can use to put structures in place to help your child solve his or her problems without resorting to bullying, conflict or abusive behavior.
