

Advancing Opportunities: Student Success Center

With unemployment and underemployment so prevalent among individuals with disabilities, college, employment and career skills are imperative to succeeding in the postsecondary landscape as a young adult. During this presentation you will learn about Advancing Opportunities approach to postsecondary supports in the Student Success Center, and how to sort out adult services so you can clearly see your student's pathway.

Advancing Opportunities provides an array of services to help students reach their fullest potential and plan for a future that excites them. It offers: hands-on assistive technology training, college coaching services, college preparedness programs and self-advocacy skills training.
