

FIVE FAST FACTS FOR FRIDAY

Personal Preference Program (PPP)

- PPP is an alternate way for individuals to receive their NJ FamilyCare (Medicaid) Personal Care Assistant (PCA) services, giving them more choice.
- PCA services are non-emergency, health related tasks through NJ FamilyCare (Medicaid). Tasks include help with activities of daily living (ADLs) such as bathing, dressing, meal preparation, and light housekeeping.
- With a monthly cash allowance, participants work with a consultant to develop a Cash Management Plan (CMP). Consumers who are unable to make their own decisions can choose a representative.
- A Fiscal Management service handles all payroll responsibilities for participants and acts as a bookkeeping service.
- PPP requires greater individual responsibility. But in return, it offers the consumers more control, flexibility and choice over the services they receive.
